

Blanche Sargeaunt

Blanche was born in Rugby but spent her adult life living in Loughborough, her husband being a Lecturer at Loughborough University.

In her later years Blanche developed dementia and needed care and support on a day to day basis. Rather than moving to a care home, Blanche decided to stay in the comfort and familiarity of her own home and receive professional support from a dedicated Carer who lived with her.

Blanche received an outstanding level of personal care and was able to remain living in her own community and continue to regularly see her friends and family and keep doing all the things that she had always loved to do.

The Blanche Sargeaunt Foundation has been established in Blanche's memory with the aim of helping others to receive the same high standard of Live In Care.

One to One care

24 Hours, 7 days a week

In your own home

**Providing One to One
Care and Support
in Your Own Home**

Helping to fund the cost of Live In Care

The Blanche Sargeaunt Foundation

The Blanche Sargeaunt Foundation is a local Charity which has been established to help local people receive permanent, professional care in the comfort and familiarity of their own home.

We work with individuals and their families to help fund the cost of providing a specially trained Carer to live with you in your **own home** and provide round the clock care and support.

This type of care is called **Live In Care** and is becoming an increasingly popular care choice for those who are looking for a real alternative to a traditional care home setting.

Through our appointed Care Agency, **Quality Life UK**, we can help arrange a personally tailored package of care to ensure that you are safe and comfortable in your own home and getting the very most out of life!

Benefits of Live In Care

Live In Care provides round the clock care and support. It involves a specially trained Carer living with you in your own home and attending to all of your care needs.

Benefits of Live In Care include:

- One to one personal care, tailored to your needs
- Remain in the comfort and familiarity of your own home
- Maintain your independence
- Keep your relationships with friends and neighbours
- Receive help with household chores
- Organised activities and access to the community with your Carer

Professional care at home
24 hours a day

Who can apply?

Support is available to anyone living in Leicestershire or Warwickshire (or within a ten mile radius of those counties) who has a genuine care need and will benefit from the support of a Live In Carer. This might include those with dementia, infirmity due to old age or a disability.

Live In Care for Couples

Live In Care is also a popular choice for couples. It enables both partners to remain living at home and enjoy receiving care together.

We recognise that couples who have spent large parts of their lives living together don't want to be separated later in life when care is needed. This is why we make Live In Care available for couples. It enables both partners to remain living at home and receive care and support together.
